Featured SEC Tier 1 Security Leaders

“Covid and the invasion of Ukraine have highlighted security’s role in critical event management and the value of protective intelligence analysis.”

[Ted Fahy](#)

Head of Global Security & Resilience
Organon

Tier 1 since 2020

Industry contributions

- Ambassador of the Next Generation Security Leader™ Forum
- Assisted in the evolution of university intel analyst online threat/vulnerability reports

Collaboration history with SEC

Since 2020, Ted and the SEC have worked on Organon global security strategic initiatives to include:

- At-risk-personnel program, criteria for assigning security levels (events, meetings, travel)
- Critical incident management advances
- Insider risk issues and awareness
- Proven solution innovation introductions and pilot programs
- Security growth strategy

“Organizational alignment is critical for the success of the security risk management function.”

[Scott Fischer](#)

MBA, CPP®, CISSP®
Director of Security
APTIM

Tier 1 since 2021

Industry contributions

- Reviewed Security State of the Industry on Travel Security
- Early analysis on ISO 31030:2021 - Travel risk management guidance

Collaboration history with SEC

Since 2021, Scott and the SEC have worked on refining APTIM’s Global Corporate Security multi-year strategic plan. Other work includes:

- Incident reporting guidance
- Multiple communications telling security’s story
- Partnering with information security
- Personal Safety and Security Playbook
- Optimized technology solutions

“Inspiring, expanding the knowledge and developing skills of security teams is a necessity to attract and retain diverse, highly motivated talent.”

SVP, Global Physical Security, Investigations & Crisis Management
Equifax

Tier 1 since 2017

Industry contributions

- Early work on the Security Convergence Research Project
- Assisted in evolution of core program enhancement strategies

Collaboration history with SEC

Since 2017, Jonathan and the SEC have worked on the evolution of Equifax’s global physical security program re-branding and value story to include:

- Cross functional GSOC/Fusion center integration
- Keeping the Board advised of active critical incident management
- Operational excellence in contract security
- Proactive fraud loss detection strategies
- Technology roadmap blend of technical (support management) suite

“The remote workforce will drastically change the concept of Duty-of-Care.”

[Jody Woenker](#)

Sr. Global Security Dir. & CSO
Elanco

Tier 1 since 2019

Industry contributions

- Early work on the [Success Universe Foundation Self-Assessment](#)
- Assisted in evolution of service delivery model strategies

Collaboration history with SEC

Since 2019, Jody and the SEC have worked on the implementation of an Enterprise/Security Risk Alignment (project) that SEC had provided Elanco. Others include:

- Re-balancing the initial security service delivery model
- Proven solution innovation introductions and pilot programs testing
- Provided requested research benchmarks
- Clarified LRVCS questions and concerns
- Developed GSOC business case and GSOC working group involvement
